

Cemetery Committee Meeting

May 13, 2021

Zoom Meeting

MCTO 7:00 pm

Attending, Brenda Baum, Betsy Taylor Kennedy, Donald Baum, Leslie Caisse

Discussion of land at the corner of Sugar Rd. and Corn Rd, Northeast corner

Rick Merrill asked If it is designated and accepted as Cemetery Land and when will action be taken on this land?

We will check into designation of this property. There is a lot of trash and debris on the lot. Replacement of split rail fence at west still needs to be completed. Don will check into this issue.

Several bushes in South Cemetery at gravesites are either dead or very sickly and need to be removed.

Mark Caisse is working with a contractor to remove several dead trees around our cemeteries.

We would like to investigate capital expenditures for next year to install water tanks at west and south, and replace the building at south cemetery. The building is in very poor condition.

We have \$4100 budgeted for this year to be used on tree removal.

DPW will be spreading loam in Pan cemetery to fill in several sunken areas to make maintenance and mowing easier.

Mtg adj. 8:15 pm
