

TREE WARDEN

Mark E. Caisse

The Tree Warden continues to work with National Grid and other utility companies to remove dead and diseased trees that endanger travel along Bolton roads. In addition, we have been working in conjunction with the Historical Commission to initiate a tree replacement program. As always, brush cutting and road-side cleanup will continue with the help of the Department of Public Works.

If any resident has a tree issue they would like addressed, they should contact Shelly O'Toole at the Bolton Department of Public Works at 978-779-6402 or via e-mail at dpw@townofbolton.com.
