Hi Valerie

Thank you for your help yesterday night.

Here is the rendition of the garage we would like to build.

I understand that this is what the board was looking for. The email includes the dimensions.

Please let me know if you think something is missing.

thank you

Odile

(76 quaker lane, Bolton)

Hi

The wall height to the eaves will be 8 feet and the ridge height will be 12 feet..

16 x 30 footprint
