Take a break from holiday stress and join Bolton Trails Committee for a walk through our Annie Moore Conservation Area!

The walk will begin at the trail head located off of Bolton Woods Way (see point on map). This will be an out and back route reaching just near Long Hill Summit, about 422' in elevation. Terrain is moderate to challenging due to traversing areas with wetland crossings, rocky terrain, and inclines.

Wildlife sightings may include deer, various bird species, among other wildlife that call this great habitat home!
